

VOTE -- If You Have the Privilege It's Your Duty -- VOTE

It's Your Choice!

Belle Glade Base Herald

Twenty seven counties in Florida voted less in numbers than did the Glades in the first primary.

Had we voted 80% of our eligible voters we would have passed at least ten other counties.

GLADES VOTING:

Eligible Voters	5,908
Estimated Republicans	58
Eligible Democratic Voters	5,850
VOTED in first primary	3,050
UNACCOUNTED FOR	2,800

THE GLADES ARE . . .
larger in area than more than half of Florida counties, blessed with a larger income, from the soil, than most, riding politically with more at stake, in future development than most.

THINK what Castro has done to the citizens right to vote! WHAT help is Castro giving Khrushchev to take over our rights?

VOTE, however we please, but LET'S VOTE ! ! !

Plans have been completed through the Chamber of Commerce working with the city to welcome members of the Fort Pierce Police Yacht Club who will arrive here early the morning of May 28, for a Memorial Day weekend cruise from Belle Glade port to their city.

About 20 boats with 65-70 people are expected to be in the party will be James Howe, mayor of Fort Pierce, "boating enthusiast."

Our port facilities are becoming more and more recognized. This will be the first time for many in the party to use our port.

Red Mounts, County Agent, right, listens to Dick (D. R.) Townsend explain the various qualities of his new hybrid sweet corn to Dr. Dalton Osanne, in charge of Eastern Division of the Perry Morris Seed Co.'s research work.

Dr. Townsend held a field day recently at his experimental farm near Belle Glade, where he presented to more than a score of Glades farmers his recent work in disease resistant hybrids. There are two particular hybrids that are now being produced commercially and several others are on the "expected" list.

Hybrid vigor is the devastating disease that is being given most consideration in new varieties.

Sen. Williams Lauds Glades Approach In Migratory Labor Problems

"If all areas of the country had achieved the progress that Florida has in meeting the problems of migratory farm labor in housing, health and education, the work of our Committee would most certainly be lessened," Senator Harrison Williams told two groups in the Glades Tuesday.

Housing, health, education and wealth of the migrant worker are subjects covered by bills being studied by Senator Williams sub-committee on Migratory Labor.

"A most interesting part of this work, too, is the interest of local groups, I notice that communities where local citizens interest themselves most in the problems, more common-sense solutions are found."

A most effective get-together was a luncheon prepared and served by Julian Griggs and his volunteer workers at the Osceola camp.

With his coat off and a second ear of Glades sweet corn the Senator questioned Mrs. Margaret Mosley concerning the problems of migrant and the problems of attendance brought about by the periodic transfer of her family.

Do Flocks Favor Dirty Streets, Weedy Lots?

Three weeks ago the Belle Glade Chamber of Commerce mailed out letters to 33 organizations asking if they were in favor of a campaign to "Clean Up Belle Glade." The Chamber of City of Belle Glade joined hands in their effort to spur clean-up activity for the improvement of our city.

"It would appear that the majority of our folks do not care what we see in our city progress, as only 3 organizations out of the 33 have taken any action towards giving any help," stated L. I. Price, executive secretary. "Neither have we received opinions on the United Fund Drive we've attempted to organize here," he said.

"You are interested let's get going. . . If not we'll forget it." Price declared, "but we don't want to hear the constant squawks about dirty streets, grown-up lots, etc.," he said.

WHAT'S THE ANSWER FOLKS? Let's see how we can help. . . Remember it take all of us to do a good job!

62 Dealers Attend FPL Annual Dinner

Florida Power and Light Company held their annual dinner, Dealers Meeting Tuesday, May 10, 1960 at the Pahokee School Cafeteria in Pahokee.

These annual meetings throughout the state give members of Florida Power and Light an opportunity to meet with all dealers and personnel connected with the building or wiring trade.

These meetings also provide an opportunity for discussing new and better improvements for Modern Electrical Living.

Approximately 62 dealers, electrical contractors, builders, and plumbers with their representatives were present.

Candidate McIntosh Offers Relief To Glades When JP's Abolished!

When asked in Belle Glade Wednesday, "what about the necessity of our folks travelling to the county and back for cases normally handled by our JP Courts after January?"

Well, I have discussed this problem with Judge McMillan and other Judges, and believe it will be practical to hold court in the Glades one day each week when necessary, even by coming here, myself. I will do whatever I can to alleviate this serious problem."

It was pointed out to Mr. McIntosh that the Glades was not in favor of abolishing the JP's Courts, and a great inconvenience would result to Glades folks.

The Glades folks heretofore have been told that it's impractical to hold court out here, but legal opinion has been had from reliable sources that Palm Beach County's judges could bridge any apparent legal difficulty.

Anyhow we have a commitment!

V. Jones Takes Over Pure Oil Bulk Plant

Waterworks Supt. Soup'in' It Up . . .

A national group favoring "more and better water, for smaller and rustier pipes in alternate eight-hour shifts" is being observed this week by local Waterworks Manager Clarence Throop, in Miami Beach.

The visiting civil servants of the nation's organized water works operations are ending the hibernating season at the Americana Hotel officially, with the nearest available hotel accommodations to late come some ten miles up the beach.

Among the items to be discussed must be "How to put more and more disagreeable chemicals in good clean fresh water and just how long the public will put up with low pressure."

Here's hoping Clarence will come back with some good tall tales.

We will most likely be regaled with assurance that "ours may not be what it should be, but just wait till you hear about muddy branch water and wiggle-worms for breakfast, lunch and dinner."

You tell on Clarence - we've got Lake Okeechobee!

Working for Bumper and Auto of Illinois, Inc., for 1960 Chevrolet pickups battle Chicago traffic day after day. Each truck averages about 2,000 miles a month in this wearing stop-and-start delivery service. Mr. Harry Haller, General Manager of S & H Truck Leasing, who leases the trucks to the bumper firm, reports: "We provide full maintenance on the trucks—gas, oil and everything else—so it pays us to know just where we stand on costs. And our records show that the '60 Chevies are giving us as much as 21 miles per gallon ... with an average of better than 17 miles per gallon. Matter, these are our kind of trucks!" Truck owners have good things to say about all Chevy engines. And when they're not talking about Chevrolet performance and economy, they're telling you how great that new Torosion-Spring Ride is. How it soaks up road shock and vibration. Protects fragile loads. Lets you run at faster, safe speeds to get more work done in a day. Drive a torosion-spring Chevy soon. We'll rest our case on that one side.

(Continued from Page One) gar, plus more than 200 gallons of black strap per acre is a lot of "sweetness and good luck" from the equivalent of three city home plots.

Palm Beach County's sugar is marketed as DIXIE CRYSTALS, and Palm Beach County's black strap is enjoyed by dairy herds, breeding herds and range cattle throughout the south, with neighborhood dairies and herdsmen enthusiastic users.

Careful breeding of European type beef animals and crossing with the Brahman on US Sugar's extensive range under "Sed" Crochet's direction has produced a heavier average calf at birth and a consequent increase in "dressout" percentage at six-month periods of growth through the two-year stage.

Records of dams and sires and a follow-through to the dress-out and grading of individual animals and herds, including supplementary rations to the high vitamin-content Glade-lands grasses, is available to neighboring and prospective cattle.

US Sugar is an outstanding agro-industry in THE outstanding agricultural County of Florida, from the "hog-and-hominy" north Florida section to the "sweet-corn-and-celery-PLUS-the-orchid-and-yacht" lower east coast.

Present Harry Vaughn, at the annual barbecue for employees and their families, presented 128 service pins to white and negro employees who had been with the company for 25 years. The President stated that the company had experienced less shut-down time than any company of its kind in the world during the immediate past harvest.

In an agricultural community, as is the Lake Okeechobee area, where half a dozen farmer co-ops total their year's sales around five million each, these figures of US Sugar for a distributor operation "ain't hay". \$5,000,000 a year in wages and salaries.

\$4,500,000 in supplies. \$1,000,000 in sugar cane purchases. \$2,000,000 freight to two railroads. -5,000,000 annually in federal taxes. \$750,000 in state and local taxes.

Mr. and Mrs. Homer Brooks were presented with the Woodmen of the World Gold Plaque for their activities in revitalizing W. O. W. Camp No. 710 here in Belle Glade. The presentation was made by B. J. Kinlaw, Field Representative. Belle Glade now has 150 active members, according to Kinlaw.

With the historically adorned and Krushcheyev-befuddled Castro tromping the stage of international sounding boards, there's great hope that Glades farmers may establish a telling appeal to Washington to unclose-

Blank And Roberts Voted Distinguished Service Award By Resources Board For Boca U. Promotion

Thursday evening Reps. Blank and Roberts were voted Distinguished Service Awards by directors of the Resources Development Board of Palm Beach County for their successful work on behalf of the university in the legislature and before the various state boards.

Complete plans for the new State university at Boca Raton will be ready for the 1961 session of the legislature as a result of State cabinet action proposed.

The support of public bodies and civic organizations in sponsoring the Board of Control with 324 resolutions urging the speed-up in planning was highly praised by Rep. Blank in his report to the Resources Development Board, which spearheaded the supporting action.

"We have come a long way," Rep. Blank told the board, "but we still face our biggest hurdle ahead in the 1961 session when we will ask for several million dollars to begin construction. I am happy to report that we have the unanimous commitments of the legislative delegations from the seven southeastern counties plus the promised help of many influential members of both the House and the Senate with whom Rep. Roberts and I have worked for many years."

Thomas F. Fleming, Jr., chairman of the RDB university committee paid high tribute to Gov. LeRoy Collins and representatives of the Board of Control for their leadership and "forward looking conception."

Editorials

The Herald, politically, is
For The Glades;
For Palm Beach County;
For South Florida, and
For All of Florida.

For the above reasons, and in their order, we believe certain candidates will serve the interests outlined here better than their opponents, and offer our readers the following:

For Governor: Doyle Carlton

Who is acquainted with the legislative halls through his own work in making effective ideas and ideals learned at the knees of Christian parents, while they were busy giving Florida one of its most outstanding gubernatorial administrations.

He has a non-radical approach to the solution of Florida's immediate critical questions.

He is a South Floridian.

For Commissioner of Agriculture: Buster Hancock

His personal record of service to his community to his profession of agriculture, to his state and his nation over the years eminently qualify him.

His previous activities have demonstrated his interest in agricultural problems of this area.

AFTER THOUSANDS OF YEARS

The newspapers of the country have plenty of competition from newer media of communication, notably TV. And they're meeting it by doing a better job.

The Rayville, Louisiana, Beacon-News reports on some facts produced by the Newspaper Information Committee. It says: "American newspapers gave their readers more news and features—about 200,000 tons more measured in newsprint—in 1959 than ever before.

"Among the nation's biggest newspapers in 39 cities increases in advertising and editorials averaged three pages . . . Over a wider area, including smaller cities, dailies increased by two pages during the year for a total of 37 pages per issue. And, certainly among the nation's weeklies, semi-weeklies and tri-weeklies, the story is one of similar expansion."

Beginning with stone tablets, reading has been around a good many thousand years. And it's here to stay!

WHEN YOU SAY "FILL 'ER UP"

When you drive your car into a service station and say "fill 'er up" various people and organizations get a slice of the money you spend. The oil producer is one, as is the refiner, the wholesaler, and the dealer.

But, believe it or not, none of these gets the biggest slice. That slice goes to government.

The statistical story is a simple one. The average gasoline tax in this country is now 10.12 cents a gallon. That amounts to 48 percent of the retail price of the gasoline itself. In 20 states the figure exceeds 50 per cent. The most extreme luxuries don't carry that heavy a tax. And gasoline is an absolute, basic necessity.

But, if some have the way, matters will get still worse. For instance, there's a move afoot in Washington to further increase the federal gas tax. And there are strong indications of an attempt to, welch on the promise that last year's allegedly "temporary" federal gas Tax boost will expire in 1961.

The moral is plain. Motorists had better start protesting now and keep on protesting if they want to keep from being gouged even more and forced to reduce the use of their cars because of high gasoline taxes.

Uncle Dan From Democrat River

Dear Mister Editor:

My old lady told me I was wasting my time telling folks my troubles in this little piece over week. She says half the people ain't interested and the other half will say I'm just jiggling what's coming to me. But sometimes I think it helps a fellow to air his complaints, even if nobody ain't listening.

I got a few this week and I ain't a bit 'em. For instance, I was reading a item yesterday that shocked the patch off 'n my overalls. It said we had given foreign countries 54 billion dollars for aid in the last 10 years. France got 6 billion and England got 7 billion. We even gave Egypt 125 million.

They say a nation can't live alone no more, that we've got to live in a family of nations. I reckon that makes sense but it looks to me like we could be a member of the family without paying all the bills.

I was reading the other day where some Congressman, lambasting the morals on television, was trying to imitate a hoochie-coochie dance he had on television. Most of the other Congressmen, the piece said, didn't appreciate it, claiming this fellow didn't have the dress or the figure for such a performance. With such goings on in the Congress, Mister Editor, I ain't no wonder, them Government agents get away with paying \$9 a bushel for dirt.

They do say that Hugh Bratley makes a good police judge. These both plaintiff and defendant were surprised in one case when the "judge" informed them that one of the other of them was lying, as both could not be right. The judge set his own idea in the matter in his decision.

They do say that Hugh Bratley makes a good police judge. These both plaintiff and defendant were surprised in one case when the "judge" informed them that one of the other of them was lying, as both could not be right. The judge set his own idea in the matter in his decision.

Sales And Gas Tax Up:
Comptroller Green reports that collections of sales and gas tax for April based on March activity make the year's total some twenty six millions more than same period last year. Total sales tax collected this fiscal year amount to, \$142,853, 106, an increase of \$20,000,000 over same period last year. Gas tax collected is \$89,830, 245 for an increase of \$6,238, 148 over last year.

Rockin Chair Money:
Unemployment insurance payments total \$2,400,652 in April, a slight rise of \$76,798 above the March figures, and how they break through the industrial Commission Chairman James T. Vocelle.

GOOSE PLUCKERS

"There are many ways to kill the goose that lays the golden egg. Plucking him alive to make featherbeds for unproductive workers is a favorite method of those politicians who confuse 'liberalism' with reckless spending of other peoples' money.

"That's the sort of political philosophy which is torturing and relentlessly weakening our once sturdy American economic goose."—Tallahassee, Fla., Democrat.

"We have staked the whole future of American civilization, not upon the power of government, far from it. We have staked the future of all of our political institutions upon the capacity of each and all of us to govern ourselves, to control ourselves, to sustain ourselves according to the Ten Commandments of God."—James Madison.

LAFF IT OFF

A girl who uses her head, usually finds a shoulder to put it on.

Many a child is spoiled because you can't spank his two grandmothers.

An adult Western is a story with a plot at least 21 years old.

A husband is a man who lost his liberty in the pursuit of happiness.

A wolf is a man who believes in life, liberty and the happiness of pursuit.

America is still the land of opportunity, where a man can start out digging ditches and wind up behind a desk—if he doesn't mind the financial sacrifice.

Uncle Dan From Democrat River

And I see where Time Magazine says the average American uses the telephone 375 times a year. I was telling the fellers at the country store about it Saturday night. Ed Doo-little allowed how they couldn't be including him on account of him gitting a busy signal 217 times. I wouldn't know how to figger my percentage on account of not being able to use mine but about once a month. The rest of the time my wimmen neighbors on the line is talking about everthing from their shoes being too tight to "Love Me Tender."

There was one bright spot in the news all week. A city judge in Atlanta, Georgia, by the name of Woolfolk announced that all juvenile delinquents that comes before him will get 15 days in jail, whether they're parents is paupers or millionaires. Now there's a Solomon if I ever saw one. If parents, won't control their younguns the courts ought to protect the rest of us 'em.

Well, Mister Editor, while you was reading this little piece, our Government was spending \$162,000 of our tax money. At 85 billion dollars a year, that amounts to \$2,700 per second. And if you spend 60 seconds reading this price, the folks in Washington has got rid of \$162,000 of your money. I better knock off now or it'll be a hundred thousand more.

Yours truly,
Uncle Dan

personal interest that is a part of every business transaction.

Howard Bair, is included in this review, however, not for his business success alone, but also because he has always been one of the really good citizens who can be depended upon to go along with progressive civic projects. The fact that he finds time in his comparatively active business life for these projects marks him as a man with pride in serving his neighbors and a reliable businessman who will serve the Police Department and the Farmers of the Glades area for many years to come.

Frank Rodell

In bestowing credit upon some of those progressive businessmen of Belle Glade, who in one way or another, have contributed their bit to improve both business and civic conditions, we wish to say a few words about Mr. Frank Rodell of Rodell's Dept. Store at 389 W. Ave. A.

Frank has set a standard for himself and the operation of his business that includes anything to improve the service offered such as the latest trends in ready to wear. This is proved by the large volume of business he continues to handle, much of which is due to his unceasing attention to detail and the courteous service each customer receives.

Nellie K. Hunt

In this day and age when conservative men are constantly seeking investments where they are not only assured a permanent source of income, but a reasonable certainty of increasing value, the real estate Broker's are doing more than their share to meet the demands of such men. This reality is indeed a pleasant one in having in its midst such a person as Mrs. Nellie K. Hunt who maintains her office at 129 Lake Ave. Pahokee.

Mrs. Hunt has been closely identified with the growth and expansion of the section and has made a close study of real estate conditions so she could offer both the buying and selling public the very best service. Her 8 years experience in building, financing and planning plus offering a free rental service for newcomers enables her to offer a complete real estate and building service.

Now joined by her son Bob, recently discharged from the U. S. Air Force, Mrs. Hunt is proud to force her business as a real estate and building service.

Nellie has made it a point not to let property for sale for more than its true value. This is why Mrs. A. V. A. in the conditions renders an authority on values. In all transactions her word is as good as her bond and people have come to look to her when seeking a desirable medium through which they can deal with confidence.

Ray Whitlock

A successful business requires the leadership of a man with thorough understanding of the needs of the customers. Leaders in this type of work are included in this review of prominent business people.

We therefore, call your attention to Mr. Ray Whitlock of Ray's Smoke House in South Bay. The host of Ray's customers gladly recommend Ray's Smoke House to their friends and this is largely due to his guiding hand in matters concerning customer satisfaction.

Mr. Whitlock considers each customer a friend and is ever ready to support any movement planned for the further growth and prosperity of the South Bay area.

His business success has been largely due to his realization that in his contact with the people it is better and more gratifying to realize a fair and honest profit than an exorbitant one. For this and his other upright principles we are proud to include Ray Whitlock and his popular restaurant, Ray's Smoke House in this review.

Ruby Vandergrift

Every progressive and successful business person in Pahokee operates in some manner, to the growth and progress of the city. One person willing to do her part in community and business activities in Mrs. Ruby Vandergrift of Ruby's Beauty Shop at 498 E. Main, Pahokee. She is qualified to offer her customers the best in a complete beauty service, catering to those women not satisfied with the ordinary and her hospitable attitude guarantees customers welcome to her shop.

The prominent part this business plays in the social life of Pahokee and vicinity mirrors the progressiveness and ability of a person such as she. Furthermore, Ruby has at all times been steadfast in her devotion to the city and surrounding area and on many occasions has lent her support to the successful promotion of meritorious civic projects.

The Pahokee area is fortunate to have such a person as Mrs. Vandergrift in the people's responsibility and service and we feel she amply merits this brief tribute.

Bill Leavins

Continued patronage of a business establishment proves that the management has a thorough understanding of the necessary service to be rendered and that prices are kept competitive at all times with the quality of the products maintained year in and year out. We are therefore proud to include Mr. Bill Leavins of Leavins and Holley Dairy on St. Rd. 80 across from Belle Glade Memorial Hospital, Sealest Distributors.

A man whose community pride runs high, Bill has identified himself with the main efforts in the city but our main points of praise in this issue are directed to his basic business policy. This could not have come about without his unswerving aim to give the utmost in service and in value, and by so doing he has retained the respect of his customers, and the confidence of his community. We are certain that in the future the past Bill Leavins will spare no effort to justify this confidence and to make it a reality in an establishment of which The Glades area can be proud.

LeRoy Tillman

A successful business is most often based on honest, cheerful and efficient service to the public and in making this statement one person we have in mind is Mr. LeRoy Tillman owner of Glades Poultry Market at 556 W. Ave. A. The courteous and efficient service rendered by this popular market is a credit to the large volume of repeat business that it receives not only from this area as well as from other areas.

Business establishments such as Glades Poultry Market have done much to make this a good all-around friendly center, and it is fitting that we extend congratulations to LeRoy who is the guiding influence behind the successful operation of the business.

He has earned his success by the method in which he has accepted both civic and business responsibilities and we are sure that with the high standard he has set for himself in the operation of his business, he will continue to prosper in this section.

Georgan Watson

Proud of Pahokee and standing high in the esteem of her fellow citizens is Mrs. Georgan Watson of Ann's Restaurant at 137 E. Main.

Such qualities as these make it imperative for certain business people to be included in this review.

With this section growing steadily every year, it becomes more and more important for the business people of the section to keep open minds for new ideas to better their own business and thus make the section a more progressive community that will attract even more trade and tourists.

In line with this progressive trend, Georgan has proved that she is an expert in the Restaurant business with a thorough knowledge of the requirements of her many customers.

William P. Pope

In any community you will always find a number of men who have shown more progressiveness than the average and who also appreciate the fact that the greater the service they can render in their business means a greater return and more success to the individual. These forthright principles have been applied by Mr. William P. Pope of Pope's Nursery on Main St. Canal Point with the success that is so well known to his friends and associates.

Mr. Pope has proved very ably that he is a nurseryman whose ability far exceeds the average. For it is largely due to his progressiveness coupled with a determination that all his customers shall be pleased that he and Pope's Nursery are rated among the best in this field.

It is a privilege to pay tribute to a man like Mr. Pope. The way he served the people of the Glades area has made his business deserving of further success.

Hassel "Ed" Edmondson

This well-known citizen of the Pahokee area is referred to by many friends as "Ed" and few are playing so active a part in the section's development from a friendly business standpoint.

A large part of the success of Ed's used cars at Ed's Stand-Service, 21 E. Main, Pahokee, is due to Mr. Edmondson's wonderful facility for making friends and winning the esteem of his customers. It is perhaps because he takes an interest in other people and appreciates the patronage extended the business.

During the time that Ed has operated his popular used car business featuring low mileage clean cars, he has been keenly observant and alert to the condition and needs of the community and has taken a pronounced and well-poised position in matters affecting the welfare of this section.

Pahokee is indeed fortunate to have such a man as a key figure in its business life and there is no better assurance of continued prosperity and growth for the area than to have friendly business people like Hassel "Ed" Edmondson.

J. D. Watson

The ability and energy of Mr. J. D. Watson at 497 Bartfield Hwy. are doing much for the advancement of his dump truck and drayage business and therefore for the community as a whole. The complete service he renders is most valuable to the city. It is the good fortune of Pahokee that this business was established.

Mr. Watson is a man that would be hard to top in his tenaciousness and achievement in the masonry service. Mr. Watson has a great practical knowledge of this business and by devoting much time to the management of it, he has been able to overcome difficulties that would have discouraged most men. The large patronage extended this business, much mark and sell business proves the efficiency of its operation and its popularity in this section.

J. D. Watson, a persistent and tireless worker for this section, has shown an unselfish devotion to the community interest.

H. M. McIntosh

Modern business people must keep informed and agile in this busy era if their business is to prosper, and the success of The Bank of Pahokee at 105 S. Lake Ave. shows that Mr. H. M. McIntosh is one of this area's more energetic citizens.

H. M. McIntosh has worked hard to achieve his goal and has never lost faith as to the onward progress of the Glades. This faith is probably the reason why, despite countless business details, he finds time to lend his support to civic projects aimed at making his dream of a better section come true.

With a sound knowledge of all phases of banking, he is playing a substantial important role in the business life of the area, and is taking his place in the orderly growth of the area. With a business that has kept pace with the residential growth.

Mr. H. M. McIntosh is a person who is easily recognized as one who must be included in a review of this type.

Frank J. Brady

The old saying, "If you build a better mouse trap," is not necessarily true in this day and age especially if you are in the package store business. You must also add that pleasant, courteous service and good products must be added to your business if the people are to "beat a path to your door."

Seemingly to realize this, Frank J. Brady of Frank's Liquors at 41 Lake Ave, Pahokee insists every customer receive the ultimate in courteous service.

Frank knows the Package Store business from A to Z. His knowledge of this business, coupled with his "Small Town"

hospitally, has made this business prosper under conditions that would have discouraged a less able man.

We need not wish Mr. Brady luck with business as he has proven that he does not rely on luck to prosper.

Please, Mr. New Governor -

STATE ROAD NO. 80 AND US NO. 441, on curve at Nine-Mile-Bend, east of Belle Glade. Shoulders drop off abruptly five to six inches.

Over \$209 million in road and bridge construction projects while work completed and accepted by the Department in the period amounted to \$10,475,115.

William D. Singer of Miami, Road Board Member for District Four, reported that construction under 47 contracts in the nine counties comprising this district accounted for \$60,297,129 of the state total.

How much of the sixty million in the nine counties is being spent in Palm Beach County?

Our 1960 Junior-Senior Prom

(by Stevie Kaufman)

The big event of the school year . . . the Junior-Senior Prom . . . held last Friday evening, leaves fond memories of a wonderful time shared by the sixty seniors and eighty-eight juniors and their dates.

As one student put it "I just wish we could do it all over again this weekend!"

A finer group of young people could not have been assembled anywhere than were ours . . . all girls and boys in their formal attire for this gala occasion.

Theme of the Prom: "Paris in the Springtime."

The kids were well pleased with their efforts. It seemed it would never be finished on time, when all the juniors and seniors turned their minds to the Prom started shaping up.

Time of Banquet: 7:00 p. m.

The Menu: Baked ham with pineapple, fresh string beans, candied yams, cake and ice cream, tea or coffee, plus relish trays filled with radishes, celery, green olives and pickled peaches.

Held at the Cafeteria, the head table was decorated with nut cups in the shape of a French flower cart, small black poodles trimmed with pink and silver glitter and centerpiece of yellow roses. Other tables were similarly decorated and centered with hibiscus arrangements made by the Garden Club.

Twenty French-clad ladies from the Sophomore class served their upper classmen. The girls wore wrap-around black skirts, black tulle and black berets with half of the group wearing bright rose color and the others bright blue tie-around blouses.

During the banquet Bobette Crews sang the senior theme song "Enchanted Island" accompanied by Mrs. L. P. Parson, and Annie Powell sang "Paris in the Springtime," the Junior's theme song with Dale Tidwell as accompanist.

For the Prom the gym was decorated overhead with blue crepe paper with star designs and about 1000 stars hanging down from the ceiling for sky effect.

The entrance, thru an archway was laid with stepping-stones over a small stream. At the left of the gym was a French Cafe covered over with blue and white striped awning. Wrought iron tables and chairs with potted palms gave the sidewalk cafe effect.

At each side of the band platform were rose trees and in the background a pink sign, "La Classe De 60." At the opposite side of the gym was the banner for "La Classe De 61."

The Muriel Orchestra furnished the music. A red floor was laid on the stage, the setting for the Eiffel Tower and the black decked-with-silver glitter skyline build-

Local Ladies Guests At Clewiston Club

Zelma Bettner, Edith Van Landingham and Bee Wood of the Belle Glade Ladies Golf Association made a return visit as guests at the Clewiston Country Club. They were royally entertained with a buffet luncheon and a fashion show, at noon and held last Friday evening in the morning and nine in the afternoon. Edith Van won low net on nine holes.

Girl Scouts

Glades Day Camp Begins June 13

The Girl Scouts have a wonderful summer ahead, especially those who are planning to attend the camping sessions. The Glades Day Camp will be held again this year in Pahokee, on the dike behind the Youth Center. The dates are June 13-16, 20-23, and the fee is \$3.00 for the 8 day session.

Mrs. E. C. Johnson, who has so successfully directed the camp in the past 2 years, will be in charge again this summer, and she says that one of the highlights of this session activities will be canoeing for the intermediates and seniors.

The Brownie staff members have met and made plans for an interesting program for this unit. Day camping is exactly what the name implies-camping by day. Campers return home each afternoon to spend the night. During their day at camp, the girls enjoy a program of Girl Scout activities in the outdoors, such as hiking, camp craft, outdoor cooking, singing and dramatics, and some girls may want to work on badges.

All registered Girl Scouts are eligible to attend and should send in their registration cards as soon as possible because the capacity of the camp is only 60 girls. For further information contact Mrs. Fred White, WY 6-3206.

The backdrop curtain was decorated with 1500 silver stars. Indirect red, green and blue lighting made a romantic setting for the couples to have their photos made.

The right side of the gym was a garden picture with a rose-trimmed swing, a bridge and stream nearby.

Blue water sprayed out of the decorated two-tiered fountain in the center of the gym to complete the picturesque scene.

Punch was served all during the prom with Mrs. J. A. Ponder and Mrs. Lee D. Ruster pouring.

Sponsoring our prom this year were Mrs. Litchfield, Mr. Marquess, Mr. Moore, Mrs. Roberts, Mrs. Stepien and Principal Pellon Morris. We Juniors as a class, would like to thank them all very much. Our Prom could not have been the success it was without their wonderful help and cooperation.

We do hope the seniors enjoyed it all as much as we.

Carroll McDonald Resigns As Blue Wave Grid Coach

Carroll McDonald, P. K. Yonge head football and track coach, at Gainesville, announced his resignation, May 12, which will be effective at the end of the school year.

Carroll, son of Mr. and Mrs. C. W. McDonald of Belle Glade is a graduate of Belle Glade High School and a football star. He has been at PKY four years. "I've enjoyed coaching and it was a tough decision to make," McDonald said, "but this was too good an opportunity to pass up."

The popular Blue Wave coach had a brilliant football career through high school and at the University of Florida, also in professional ball before coming to PKY as a graduate assistant in 1956. He was an four-year letterman and captain of the Gators as a senior in 1951. He was a all-SFC center and was selected to play in the North-South Shrine game in Miami. He was chosen to the All-Star Shrine team for the performance.

After a year with the Detroit Lions, he was playing coach with the Fort Jackson Eagles, and played one year with Ottawa of the Canadian League.

He received his masters degree from Florida and was named head football and track coach at PKY. Although a small school McDonald's Blue Wave teams always had an explosive offense, and this year will be represented in the All-Star football game by halfback Charles Layfield.

With the 1960 Census of Population and Housing virtually completed locally, District Supervisor Wm. A. Horton today announced the beginning of a "Were You Counted?" campaign to insure that no resident of the area has been overlooked. Persons who believe they have been missed by the census takers are urged to notify the census district office by means of the "Were You Counted?" forms. Area newspapers are printing these forms in their current editions as a public service. Prompt mailing of the "Were You Counted?" forms will speed up the completion of preliminary population figures for the area.

Preliminary figures presenting the total population of incorporated places of 10,000 or more population, and for counties, will be issued as soon as the district supervisor is convinced that a complete count has been made. Final, detailed population figures will be issued in Washington later this year after the

returns have been tabulated on the Census Bureau's electronic computers.

The importance of a complete count was stressed by the district supervisor. He pointed out that the population figures compiled in the current census must stand as official until the next Federal Census.

"Federal aid funds are allotted to States and State Funds, in turn, are allotted to counties and municipalities on a per capita basis. So a short count means a short allotment. Thus it is imperative that we have a complete count. The help of every resident of the area is needed to reach this goal," he said.

"It is possible that some Advance Census Report forms have not been picked up by census takers," the District Supervisor said. He urged persons still holding such forms to mail them to the local census office.
